55638/747-3

Police Department
New York, N. Y.

Gentlemen:

The Immigration and Naturalization Service is considering the authorization of a grommetless 8-point type uniform cap to be worn by the U. S. Immigration Border Patrol along the northern border. Many favorable comments have been received concerning the regulation 8-point cap worn by the New York motorcycle police. For possible use in connection with the preparation of regulations governing a suitable cap for border patrol wear, this office would appreciate receiving a copy of your specifications covering the New York police-style cap.

Very truly yours,

By direction of the Commissioner:

W. H. WAGNER, Assistant
