District Director,
Immigration & Naturalization Service,
El Paso, Texas.

Your letter of Oct. 28, 1940, File 5002/175-A.

You are respectfully informed that the writer is of the opinion that outpost stations in this subdistrict should be established and buildings constructed at the following locations:

Slaughters Ranch (San Bernardino Ranch, Arizona)

Hereford, Arizona

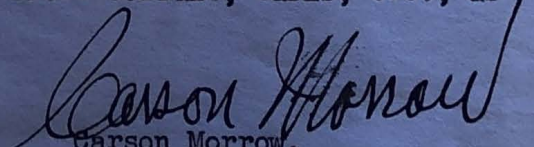

San Rafael Valley station should be erected somewhere in the vicinity of Lochiel, the exact site to be determined later, dependent upon ability to secure land either by lease or purchase for this purpose.

Sasabe, Arizona

Sonoyta, Arizona

A patrol outpost station should be established somewhere between Presumido Pass and Managers Dam, the exact site to be determined later. It is believed that it will be necessary to secure permission or make some kind of an agreement with the U. S. Indian Service to establish this station, as this territory is in the Papago Indian Reservation.

There is enclosed herewith pencil sketch and description of what is believed would be suitable buildings for outpost stations. The sketch shows barns, corrals, etc.; however, it is only contemplated that horses will be used at Slaughters Ranch and at Hereford, Arizona. These two stations are the only ones where it would be necessary to erect corrals, barns, etc., as shown in the pencil sketch.

Carson Morrow,
Chief Patrol Inspector.
